

Laundry Finish Checklist

One manageable group, all the way to storage.

TODAY'S GROUP: _____

☐ **Clear a comfortable spot**

Use a clean, dry surface. Bring hangers and destination baskets within reach. Sit down if that makes the task easier.

☐ **Check that everything is dry**

Feel waistbands, cuffs, towel hems, and bundled bedding. Separate damp items and finish drying as their care labels allow.

☐ **Sort by where it belongs**

Group by person, room, or storage area. Keep unmatched socks in one small container instead of stopping to search.

☐ **Choose the simplest finish**

Hang suitable pieces, fold everyday clothes to fit their storage, and use no-fold bins where wrinkles do not matter.

☐ **Put one group away**

Transfer clothes into their actual drawers, closet, or linen shelf. Keep loads light enough to carry safely.

☐ **Make the handoff clear**

Agree who finishes each basket and what help they need. Functional folds count; they do not need to match.

☐ **Reset for the next load**

Return the empty basket, clear the work surface, and leave remaining dry laundry in its designated clean place.

LOW-ENERGY OPTION

Choose tomorrow's clothes or one small category. Work seated, ask for delivery help, and stop after that group reaches its home.

MY NEXT LAUNDRY CUE: _____

Care labels come first. Store clothes and linens only when fully dry.
