

Smart Toilet Exterior Care Card

Fill in your exact model details before cleaning. Keep the manual nearby.

Brand / model:

Manual location / care page:

Power-off or cleaning-mode procedure:

Approved cloth and cleaner / dilution:

Sensor location and special finishing instructions:

Exterior care check

- ☐ Read the model-specific maintenance instructions.
- ☐ Prepare the unit using its prescribed power or cleaning procedure.
- ☐ Keep bowl tools separate from sensor and control cloths.
- ☐ Use the permitted soft cloth; wring it thoroughly if damp.
- ☐ Wipe accessible sensors and controls gently. Do not spray.
- ☐ Clean permitted lid, seat, and exterior surfaces with fresh cloth areas.
- ☐ Check for residue and droplets; finish as the manual directs.
- ☐ Restore operation as instructed, with hands clear of moving parts.

Stop for damage, leaks, unusual heat, or persistent faults.

Do not open housings, insert tools into openings, or bypass sensors.

Care date / question for the manufacturer:
