CLOTHES RACK

Cleaning and Reload Checklist

Empty first. Follow the model instructions. Reload only when ready.

Date: _____ Rack model: _____

BEFORE YOU START

- ☐ Remove all garments, hangers, bags, baskets, and shoes.
- ☐ Place the empty rack on a level floor with clear access.
- ☐ Read the care and assembly instructions for this exact model.
- ☐ Identify each material; use moisture only where permitted.
- ☐ Keep children and pets away from the work area.

CLEAN AND CHECK

- ☐ Dry-dust the rail, uprights, accessible joints, and lower bars.
- ☐ If permitted, damp-wipe gently using the approved cleaner.
- ☐ Keep liquid out of tubing, locks, and wheel mechanisms.
- ☐ Dry each cleaned section; clean the surrounding floor.
- ☐ Look for loose, missing, bent, cracked, or sharp parts.
- ☐ Check wheels and locks as the maker instructs; do not dismantle.

RELOAD DECISION

- ☐ Frame and joints are dry; no obvious cleaner residue remains.
- ☐ No unresolved stability, damage, or wheel concern remains.
- ☐ Reload gradually within the model rail, shelf, and hook limits.

My permitted care method: _____

Rail / shelf / hook limits: _____

Problem or next action: _____

Next dust check: _____ Ready to reload? YES / NO

STOP: Keep the rack unloaded if damage or instability is unresolved. Cleaning does not repair a rack or certify its safety. Do not mix cleaners, soak the frame, force locks, or use clothes as a stability test.
