Marmoleum Click Joint Care

A small surface-cleaning checklist and product record

My exact floor range / installation year:

Matching care-guide location / supplier contact:

Approved cleaner and exact label dilution:

Before and during this small clean

- [ ] Confirm the product and check for changed or damaged joints.
- [ ] Pause for lifting, swelling, returning moisture, or a new opening.
- [ ] Clear one reachable area and keep a dry route through the room.
- [ ] Lift loose grit with a clean, suitable soft tool.
- [ ] Wipe surface marks with a well-wrung cloth or pad as permitted.
- [ ] Use approved cleaner only as directed; rinse if the guide requires.
- [ ] Lift excess moisture; leave seams and installed seals undisturbed.
- [ ] Let the floor dry fully before traffic or replacing mats.

Date / area cleaned / anything different:

Question for the flooring supplier / next action:

This card covers ordinary surface cleaning, not joint repair or leak recovery.
Follow the instructions for your exact floor. No universal mixing ratio applies.
